Amcom Cloud Commissioned for University of Western Australia

Amcom Telecommunications (ASX: AMM) is pleased to announce that it has successfully commissioned the hosted cloud services for the University of Western Australia (“UWA”).

On 25 July Amcom announced an agreement to provide dedicated hosted cloud services to UWA with an initial contract value of \$9m over 3 years with options to extend.

Amcom has successfully delivered this turnkey hosting solution to UWA in 11 weeks. This rapid deployment of a large hosted services solution demonstrates Amcom’s cloud capability. The solution provides UWA with a hosted server environment for hundreds of servers, enabling storage for hundreds of terabytes of data. All services have been delivered over Amcom’s 10 Gigabit fibre network.

Dr Mary Davies, UWA’s Librarian and Director (Information Management), said “The speed of the setup of the infrastructure to deliver the services has been met within our very challenging timeframes. Amcom have been responsive and worked cooperatively with us to achieve these.”

Amcom CEO Clive Stein said, “The successful deployment of our hosted cloud services for UWA in such a short timeframe is another great example of our ability to work with customers to deliver a tailored solution and validates Amcom’s entry into the fast growing cloud market.

The cloud services market is rapidly expanding globally and provides customers with significant benefits of cost and scale. Amcom is ideally placed to leverage this emerging trend in the cloud with an established customer base of 900 blue chip corporate and government customers.

**THE UNIVERSITY OF
WESTERN AUSTRALIA**
Achieve International Excellence

About University of Western Australia

The University of Western Australia (UWA) is recognised internationally as a leading university.

Our ground-breaking research, quality academic staff and state-of-the-art facilities combine to offer a vibrant student experience.

As Western Australia's leading university, UWA was rated second overall in Australia by the Good Universities Guide 2011 based on key performance measures such as graduate starting salaries, employment prospects, staff qualifications, research intensity and student demand.

The University of Western Australia consistently ranks in the top 120 international universities and in the top 10-18 universities in the Asia-Pacific region.

UWA is the only Western Australian university to belong to the Group of Eight – a coalition of the top research universities in Australia – and it is one of only two Australian universities to belong to the Worldwide Universities Network, a partnership of 16 research-led universities from Europe, North America, North Asia and Australia.

amcom

About Amcom

Amcom is an award-winning Australian telecommunications company and provides high performance network services to business and government. Operating since 1998, Amcom specialises in providing data, internet, voice and hosted Cloud services to a range of customers.

We own and operate over 2,100km of fibre-optic network in Perth, Adelaide and Darwin. Our network enables us to offer high-performance, cost-effective business solutions, and makes it easy for our customers to increase capacity or add new services. We also own and operate 3 data centres in Perth. Corporate, enterprise and government organisations work with Amcom to connect their separate offices, to deploy business-grade voice and internet and to connect to data centres.

Delivering superior customer service, faster connection times, product innovation and low connection costs, Amcom is the provider of choice to many leading organisations.
